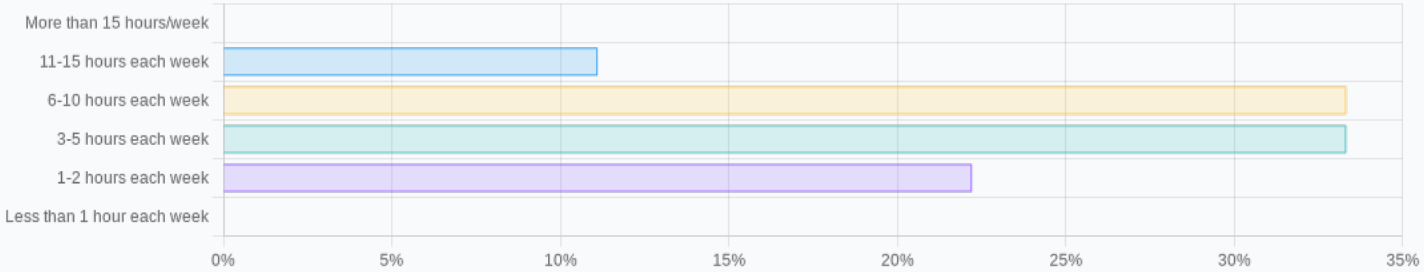
Course Reflection Survey

The UNIVERSITY of OKLAHOMA

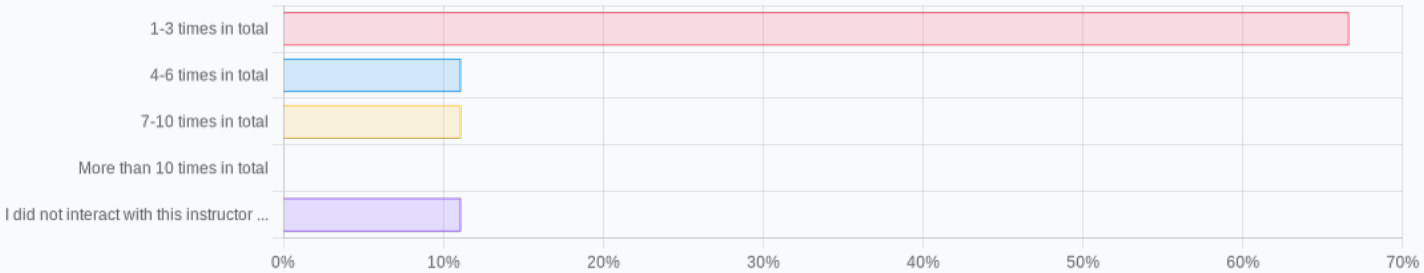
Term: Summer 2025
Course: ECON 1123-300: Principles of Economics-Micro
Instructor: Md Shafiul Islam
Instructional Method: Synchronous video conf/remote
Total Responses: 9 out of 20

Section 1 – Student Engagement

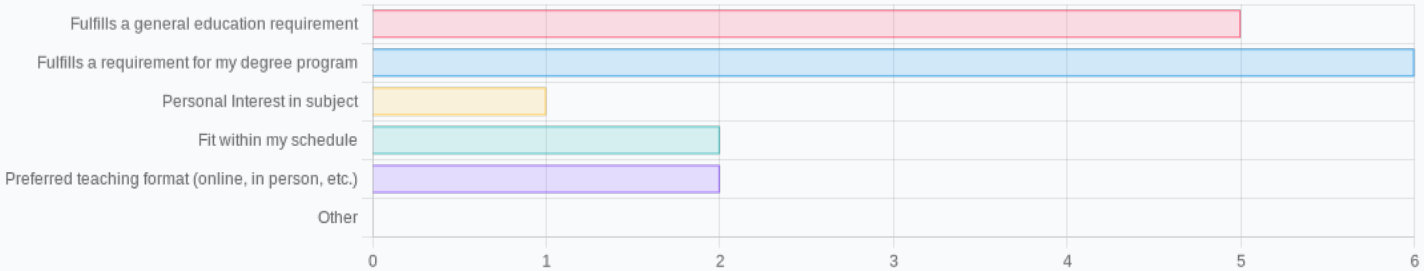
1. How many hours per week did you spend engaged with this class (attending class, participating on discussion boards, reading, studying, projects, etc.)?



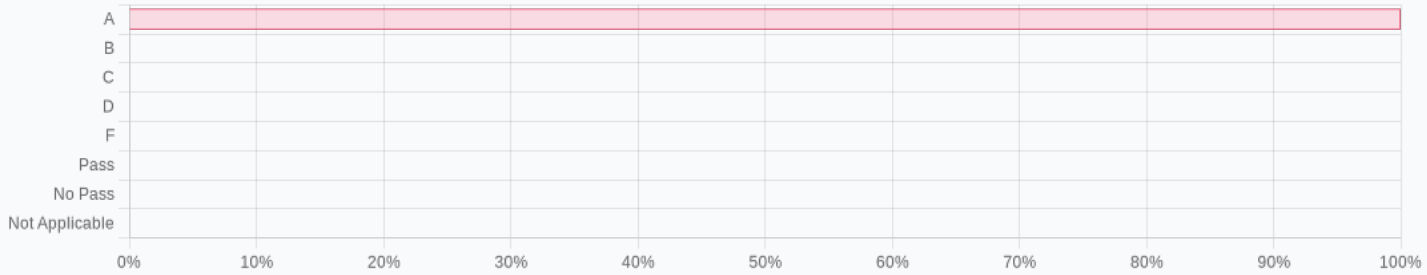
2. Approximately how many times did you interact with *Md Shafiul Islam* outside of class (e.g. by email, office hours, online video meeting, etc.)?



3. Why did you enroll in this course? (choose all that apply)



4. What grade do you expect to earn in this course?

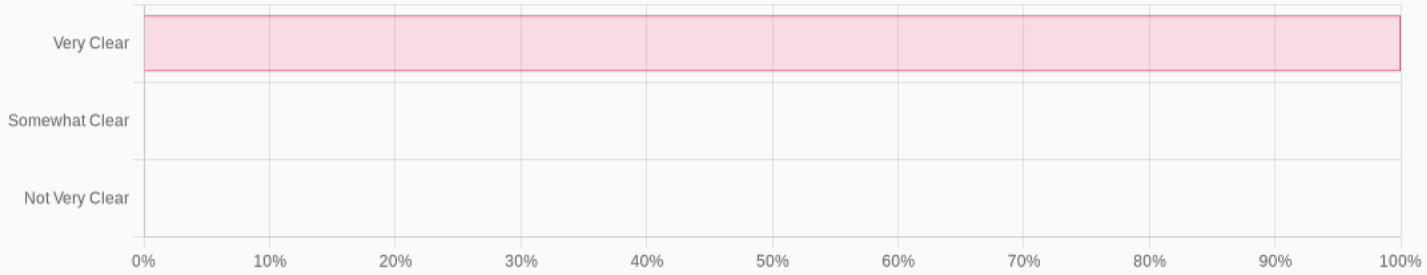


5. If you have additional comments about your participation in this course or suggestions about how to make the course more engaging, please share them here:

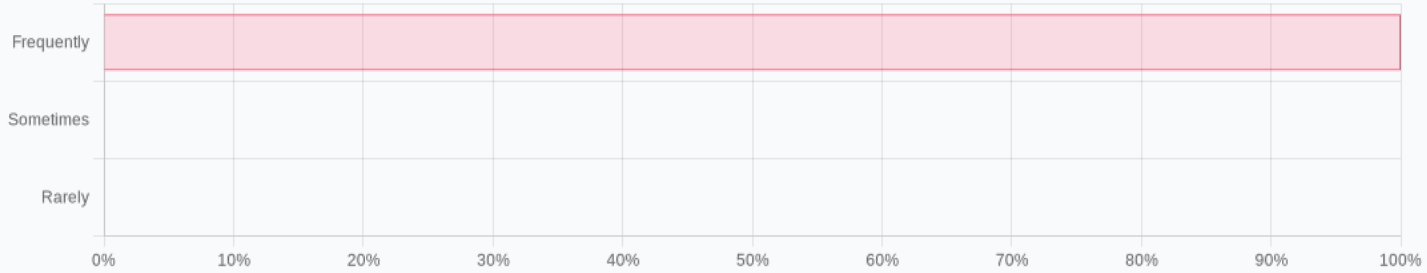
View Comments

Section 2 – Course Organization

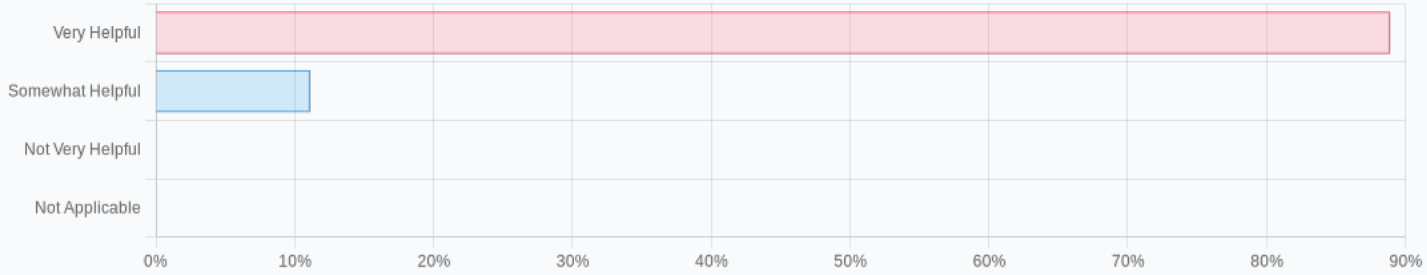
6. To what extent were the expectations and grading scheme for assignments and the overall course made clear?



7. To what extent did *Md Shafiul Islam* appear to be organized and prepared for student interactions?



8. To what extent was the course website/Canvas helpful?

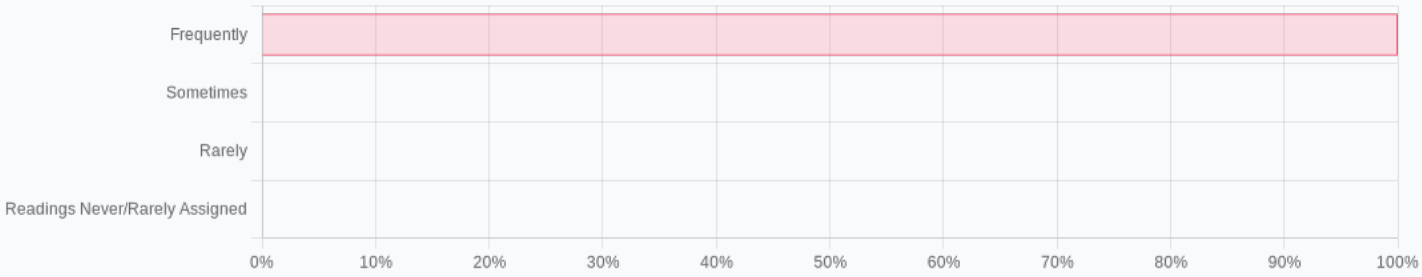


9. If you have additional comments or suggestions about how the course or the course website/Canvas was organized, please share them here:

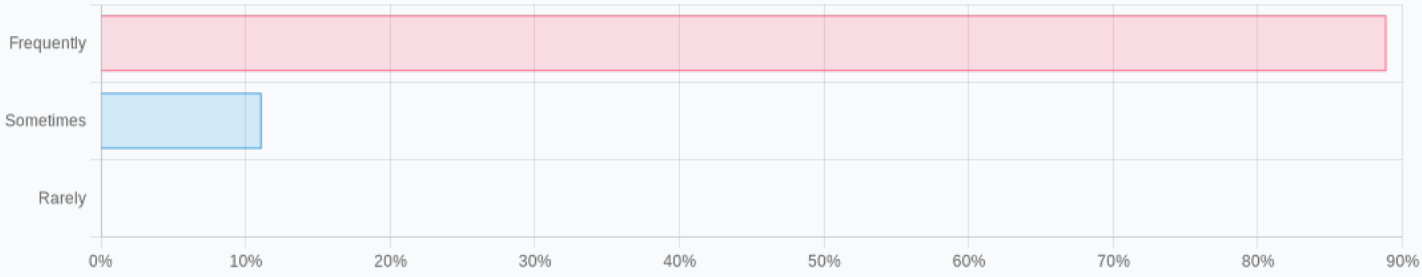
View Comments

Section 3 – Student Learning Experience

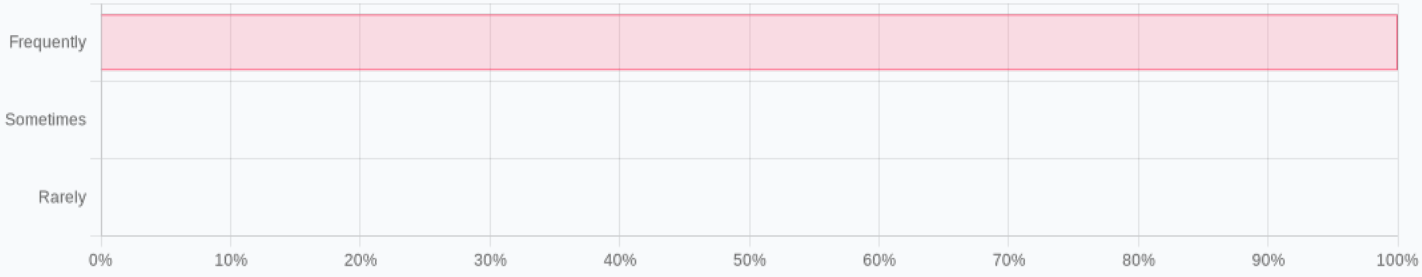
10. To what extent were the reading assignments and/or online instructional materials beneficial to your learning?



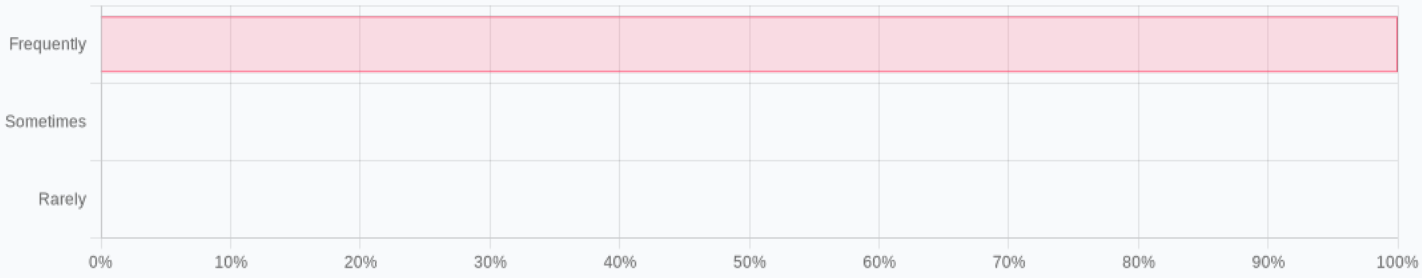
11. To what extent did *Md Shafiul Islam* explain or demonstrate the larger purpose or value of the material covered in this course?



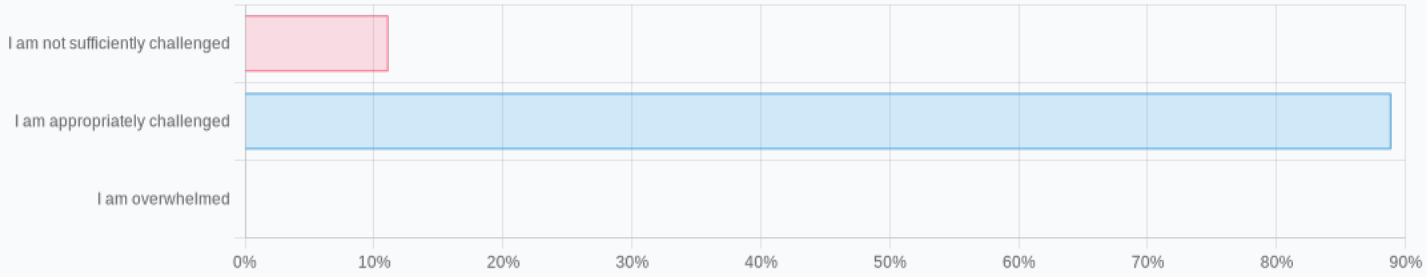
12. To what extent did *Md Shafiul Islam* use a variety of examples or approaches to illustrate concepts?



13. How often did the assignments, projects, discussions, rehearsals, performances, and/or exams seem connected to the course content and goals?



14. In general, the following statement best describes my experience of this course up to this point is:



15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

23. Which elements of this course had the most positive impact on your engagement and/or learning?

I really enjoyed his lectures, I thought he did an excellent job of providing us with the information in a very short amount of time.

Lecture

One of the most impactful elements of this economics course was the clarity and structure of the lecture slides. They broke down complex concepts like elasticity, market structures, and opportunity cost in a way that was easy to follow and made studying for quizzes and exams more manageable. Even without practice problems, the straightforward presentation of key ideas helped me stay engaged and understand the material better. The quizzes and exams also reinforced my learning by encouraging me to focus on the most important concepts.

Professor Islam makes this course very conducive for students taking Micro-Economics over the summer, which was very appreciated! The way the course is structured gives students a lot of flexibility in learning the content at their own pace while still having the benefit of guided instruction. Additionally, Professor Islam always made himself available outside of class meetings to clarify or explain any course concepts. My meeting with Professor Islam proved invaluable in helping clarify a number of concepts in Unit 1. He does a great job teaching this course!

The helpfulness of the teacher

it being online so I can work by myself and not be distracted

The modules for each week

24. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

I wish we had some more interactive assignments to help engage learning, but overall I really enjoyed this class and took a lot from it.

I feel as though it is always better when the class is engaged by having their cameras on. It makes it easier to ask questions and a little less awkward when the professor can see the "classroom." In addition, it could be helpful to provide supplemental material- perhaps youtube videos on the subject or a text to refer back to. I didn't feel I needed it, but just for those who did but were afraid to ask.

One element that could be improved is the inclusion of more interactive practice problems or review activities. Since the course relied mainly on slides, quizzes, and exams, it was sometimes challenging to test my understanding before being assessed. Adding practice questions, discussion posts, or short review videos could help reinforce key concepts and make the material more engaging. These additions would give students more opportunities to apply what they've learned and feel more confident going into assessments.

I think the course is ideal as is!

I thought the cource was great how it is

nothing I liked the course

more material like having optional homeworks
